Student Managed Devices: On UCMO-GUEST Wi-Fi

(e.g. Gaming Consoles, Smart TV's, Smart Speakers, etc.)

IMPORTANT: PLEASE READ BEFORE ATTEMPTING TO CONNECT YOUR DEVICES!

Because devices must be connected through our guest WiFi, please do not try to connect your device to the UCMO-WiFi first as it will fail. Use the following QRCode or link to connect to the UCMO-GUEST Wi-Fi instead.

This site will allow students to manually enter their wireless MAC addresses for those devices that cannot connect to the UCMO-WiFi.

  https://student.devices.ucmo.edu

Students are allowed a maximum of 10 devices connected at one time.

Important Note: All Student entries are valid for one school year. They will be deleted at the end of each spring semester.

Feel free to reach out to us if you have any questions. The Technology Support Center (TSC) is on the Lower Level of the *Ward Edwards Building room 0800* or by calling *660.543.4357*.

 Happy connecting!
