SME reviews are used when HR enlists the expertise of their organization's subject matter experts (SMEs) to assist with the candidate selection process. The application of an SME review ranges from a simple pass/fail rating with a single reviewer, to a scored assessment with a panel of multiple reviewers.

The OHC has an extra layer of user security in the context of scored performance and oral exam evaluation steps. To complete an SME review for either a scored performance or oral exam evaluation step, an OHC user must be given the SME role and a rater record (Insight navigation: Tests > Raters and Proctors) with an email address matching the user profile email address. This added security offers a well-defined scoring area when multiple reviewers are used.

This is a pre-offer step that does not require scheduling candidates to complete an assessment, e.g., a review of candidates' submitted application materials. Completion of this step may take place prior to candidate interviews.

Similarly, with the hire workflow step type of Exam, candidates are evaluated using one of the three standard rating methods (pass/fail, star, or percentage). This is a pre-offer step that does have an available scheduling component; where a group of candidates complete an assessment, e.g., a performance exam.
